Graduate School of Medical Sciences,
Kanazawa University**

I. Admission Policy

This program aims to cultivate human resources who have extensive knowledges and research abilities from the basic to developmental in the field of pharmaceutical sciences, and who have international perspectives. The school cultivates excellent human resources who can contribute to general life sciences including Pharmaceutical Sciences through educations and basic researchers by seeing various physiologically active substances, such as drug medicines, from chemical, physical, and biological aspects.

Specifically, the school cultivates Human Resources who play active roles as development researchers, academic researchers and MR in Pharmaceutical, chemical and food related company, researchers of public institutions, administrative officers in the area of medical care, public welfare, pharmaceutical affairs and environmental sciences. The Division of Pharmaceutical Sciences accepts any students regardless of previous experience in an academic discipline if they strive to succeed in these types of jobs in the future.

As basic policy on our selection of students, we consider that the followings are important:

- A higher level of academic ability (major field and English)
- High comprehension and passion to the research work
- Strong motivation to succeed in the field described above in future

In the selection process, we evaluate the basic academic ability, English proficiency, logical thinking ability, comprehension to research subject and so on.

II. Major Name and Admission Capacity

Division of Pharmaceutical Sciences : A few students

Granted degree : Master of Pharmaceutical Sciences

III. Types of Screening
